EDUCATION

Indian Institute of Information Technology, Una

August 2018 - June 2022

Bachelors in Technology (CSE)

7.28 CGPA

WORK EXPERIENCE

Indiamart

Noida

Software Engineer

Sep 2023 - Present

- Spearheaded migration of critical seller features (Dashboard, Login, Products) to React.js, significantly enhancing user experience and modernizing the frontend architecture while mastering React development.
- Proficiently utilized React.js, Next.js, JavaScript, AJAX, REST APIs, HTML/CSS, Docker, Kibana, CDN, CI/CD pipelines, and Git for development, deployment, and optimization.
- Developed the 'Buyleads' Next.js web application (listing, search, filters, back-press handling) optimized for performance and integrated within the Android application via WebView.
- Drove performance initiatives (AJAX optimization, Web Vitals, load times, chunk reduction), established CI/CD infrastructure, implemented feature enhancements (Settings, OTP sync), and researched SSR/CSR.

Indiamart

Noida

Associate Software Engineer

May 2022 - Sep 2023

- Led migration of key modules (Settings, Buyer Tools, Profile, Seller Dash/Login) from legacy PHP/jQuery to React/Node, boosting performance and maintainability.
- Developed complex full-stack features using React/Node for buyer/seller workflows; mentored team members in React, accelerating adoption of the modern codebase.
- Implemented Kibana logging for Node/React APIs and Google Ads integration; resolved post-migration client issues, enhancing observability and stability.

Datagrokr

Bengaluru

Full Stack Developer & Intern

July 2021 - May 2022

- Architected and developed the complete frontend for the COI Rewrite project using React.
- Enhanced backend APIs with VERISK data augmentation; utilized AWS services (S3, Lambda, SQS, DynamoDB, IAM).
- Learned AWS (S3, Lambda, SQS, dynamo DB, IAM) and did some AWS deployment and management assignments.

SKILLS

Languages : Javascript, HTML, CSS, C++, PHP, Python

Frameworks : NextJS, ReactJS, SvelteJS, NodeJS

Tools : Kubernetes, AWS, Kibana, Grafana, Git, Gitlab, Devtron, Google Analytics, Ngnix

Technical / Programmatic : Networking, Data Structures & Algorithms, System Design

ACHIEVEMENTS

- Got 3rd position in Indiamart's First GenAI hackathon out of 35 teams.
- Awarded the Best Performer Of The Month for November-2023 in Indiamart.
- Awarded "Rocket recruit award" for outstanding work performance in Q1 2022 at Datagrokr.
- CodeChef: Ranked 88 globally in Codechef October 2020 Lunchtime challenge (Div.1)
